Miscellaneous notes about T-shirts

in the order I made them, as the Gaza assault unfolded, continues and ever expandsn until...

THIS WINTER, ISRAEL WILL CRACK!

1. THE EMPIRE HAS NO CLOTHES

The letters are the Palestine fishnet. The Democratic party and administration committing Humanitarian Genocide, followed by Trump /Board of Peace genocide as investment.

2. Houthis team shirt.

The Yemen Houthi's are the only nation that fulfilled its legal obligation to intervene to stop a genocide. When the genocide began (Israel announced its genocidal intentions at the very outset of the assault), the Houthi's stated that they would blockade all ships headed for Israel until the genocide stopped. Under Biden, the US sent a carrier strike group to protect US-Israel's ability to commit genocide, and protected the genocide partnership from intervention by the UN with its veto power. The US and Israel both attacked Yemen, but the Houthis continually insisted that no matter the consequences, they would blockade until the genocide ceased. The US claimed the Houthis were terrorists interfering with global commerce, to deny that Houthis were fulfilling the genocide convention, even as the US violated it. Later Trump also attacked the Houthis but could not prevail, so agreed on a truce (after losing a bunch of 30 million dollar drones shot down by the resolute Houthis). This truce did not even require that they stop blockading Israel-bound ships or attacking Israel. Mainstream media represents Houthis as international terrorists, rather than being in unique observation of international law.

3. Francesca Albanese

... is the special rapporteur for human rights in Palestine. She is the strongest legal global voice holding parties accountable for genocide and complicity in genocide. First she published a well researched report that Israel was committing genocide. Next she published a report showing international corporations' complicity and profit-making from the genocide, including huge software companies, banks and universities such as MIT, which performs contracts for the IDF including programs like "autonomous robot swarms." Her next report was on the criminal liability of states such as the US, Britain and Germany, that are in violation of the genocide convention, both by supplying arms they know are being use to commit genocide, and also by not intervening to stop a visible genocide. Her most recent research report is Torture and Genocide. She is a powerhouse of human rights, but as you can see, she is also weaponizes charm and elegance, as chic as Audrew Hepburn in Breakfast At Tiffany's, and the media never manages to dominate her or deflect her accusations of broad and profitable complicity in genocide of Palestinians..

4. I am not a terrorist.
I first made this T-shirt in 2001, following 9-11, for an installation at Boston City Hall that included a Quixotic participatory timeline of events in world history up until 9-10, establishing that the history of US warfare to control Middle East did not begin on 9-11—just as the October 7th, 2023 did not come out of the blue, but was part of a long and ongoing history of colonial oppression and resistance. You will notice how the mainstream media always says that the "conflict" began with the October 7th attack. This reminder is always added at the beginning or end of every mainstream article.They do not mention that the Palestinians had been under siege by Israel since 2006, when it elected Hamas as the governing party in an election that Jimmy Carter monitored and said was a clean election; or that Israel and the US conspired unsuccessfully to violently overthrow the Hamas government—much less the massacres and expulsions of Palestinians from their own land in 1948.

Or that in the siege, Israel restricted food to a specific calorie-count per Gazan, called "putting Gaza on a diet" and periodically slaughtered civilians to suppress the liberation movement, called it "mowing the lawn." Nor that the Gazans were imprisoned behind layers of electronic fences guarded by IFD watch towers and motion-sensing devices. Nor that the attack targeted a military base, aiming to take soldiers hostage, to trade for release some of the thousands of political prisoners held in torture prisons by Israel. Nor that IFD attacked the militants from aircraft at the music festival killing Israeli civilians, targeted vehicles contaning hostages, and attacked Israeli hostages in a kibbutz by tank fire, under the military Hannibal directive to kill Israeli citizens to prevent them being taken hostage. (This is reported in Israeli but not US media.) One could go on endlessly about about the Orwellian inverted framing of Israel as victim of the subjugated, imprisoned,dispossessed, displaced and bombarded surviving, resisting Palestians. As a prime example, Israel's long history of torture and sexual abuse of prisoners is inverted into false reports of "systematic rape" on October 7th, propanda falsehoods which the New York Times disseminated and continues to further, despite thorough debunking by Israeli media. (See Electronic Intifada's thorough analysis.)

OK, returning to the Boston City Hall situation: The display had photos of all the displays of flags in Boston after 9-11. At first City Hall thought the flags were meant to be chauvinist flags, i.e. similar to Zionists draping themselves in Israeli flags in support of genocide. Then they realized they ethnigraphic research labelled as "data samples." They banned me from City Hall and censored the show. I made the Tshirt to try to enter City Hall. So the situation now reminds me of the way the US started history on 9-11 with an out-of-the-blue attack, not blowback of American violence and warfare in the middle east. Reprinted now, it was meant to be a little provocative, but soon Donald Trump started actually calling American resistance "terrorists" (like the murdered Renee Goode), so the meaning actually became straightforward.

5. Abu Obaida
...is one of the many Hamas leaders or officials that Israel has assassinated, partnered with US intelligence. He was the press secretary/spokesman for the Hamas military, parallel to Matt Miller, the White House spokesman at the time. Noting that Palestinians have a legal right to defend Palestinian lives and to military resistance to occupation. Always masked, Abu Obaida gave poetic, inspiring speeches to encourage Palestinians and was a beloved symbol of the liberation struggle, He was a prime assassination target, like Yahyah Sinwar, because both uplifted Palestinians, and mocked and humiliated Israel and its army. So, an hommage assassinated freedom fighters. Any Hamas leader (or anti-colonial leader) volunteers for assassination—along with Palestinian journalists, who, as thy attract a global audience, will be assassinated by Israel, along with doctors, medics, aid workers, etc. Israel assassinated the chief negotiator of Hamas during negotiations, then attempted to assassinate his replacement. All the while, the US claimed Hamas was obstructing negotiations ... by not unconditionally surrendering to Israel.

6. One State Justie
This shirt proposes a flag and the end of the Zionist regime. In historic Palestine under Israeli "democratic" control, less that half the people have full rights, that is, only Jews have full rights. Inhabitants of the occupied territories of the West Bank and Gaza are not citizens and have no human rights; the 20 percent of Palestinian Israelis who were not expelled live under an apartheid system that is enforced through many different policies, most recently, special death penalties for Palestinians only. Israel has no constitution because it can't put its racist apartheid structure into explicit language; and no borders, because that would interfere with ethnic cleansing expansion known as "facts on the ground. This is a kind of ugly Tshirt, but I like the flag.

The way the US and Western countries have supported Zionist land-theft and oppression is through the idea of a "two-state solution" yielding most of Palestine to Israel. This form of injustice may have been possible in the 1990s, when the PLO agreed to recognize Israel, lay down arms, and settle for only 20% of the land Palestinians originally occupied, but since that surrender, Israel reneged on the agreement to give Palestinians a state in the territories it occupied in 1967. Instead, it enacts a policy of annexing more and more land to prevent the possibility of any state, with it's paramilitary settlers terrorizing Palestinians and expelling them from their lands, and passing a law that only Jews have a right to self-determination in Israel. Advocacy of a fictional "two-state solution" is a pretense to allow Israel to continue to kill and expel Palestinians. Oslo created a corrupt quisling collaborator, the Palestinian Authority, that does "security" for Israel,

The Palestinian Authority and the imaginary "two-state solution" are a deception to prop up the Zionist regime and block any freedom movement aimed at creating a democratic constitutional state with all citizens free and equal and allowing Palestinians to return to Israel. Only Jews, from anywhere in the world, who may never have lived in Israel, can now "return" to Israel. The two-state surrender would leave Israel with full military control over land, sea, water and governance of the supposed Palestinian state. It ratifies a Jewish supremacist state and a fake Palestinian 'state' without sovereignty or self determination, a new permanent form of apartheid. So "two states" is declared dead.

The flag image signifies that such a new, democratic state would include law-abiding remaining Israeli Jews (the blue stripe added to the Palestinian flag), as a constitutionally-protected minority ethnic group, when Palestinians are granted citizen rights, right of return from diaspora and restorative justice. The blue stripe is important, because Israel likes to pretend that a free state of Palestine is a call for genocide of Jews, a typical reality inversion. This is a positive visiion for ZIonist collapse.

7. The hydrogen fusion leafblower (TM)
This T-shirt is about progress—endless free energy, the dream of limitlessness, green economic growth, allowing newer and improved leaf blowers. AI can deal with everything but the problematic leaves.

8. A series I haven't gotten to...**Resignation Heroes:** For all the Biden administration officials who resigned from the state department. And there were many who wouldn't go along with denying atrocities, justifying bombing hospitals,residences, universities, refugee camps, water supplies, food distribution warehouses, assassinating or imprisoning and torturing journalists, rescue teams, medical workers, or join in the pretense that Israel was not blocking food or deliberately killing civilians and aiming to make Gaza unlivable and wipe out Palestinian existence in Palestine. Biden appointee Samantha Powers, author of ***American and the Age of Genocide,*** was not one of them. And we have Trump suppling many more. But "let's be clear": Biden's Democratic Humanitarian Genocide was deliberate and preempted Trump, under the shit-happens slogan, "Too many people have died!"

Any thoughts? Lydia Eccles/Universal Aliens ~ UniversalAliens@Hotmail.com

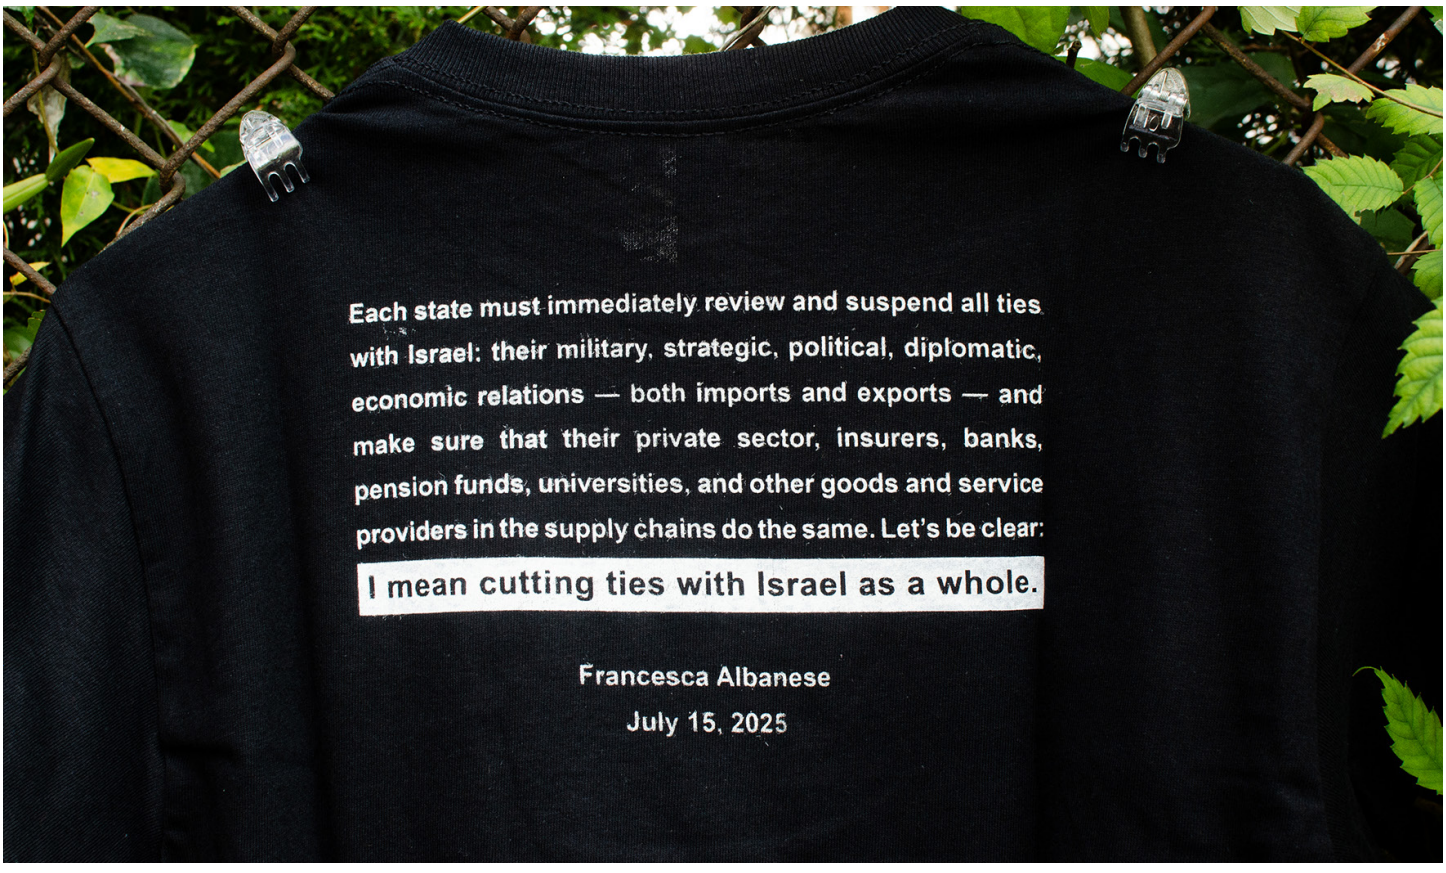
—Yahya Saree, Houthi Spokesperson



Each state must immediately review and suspend all ties with Israel: their military, strategic, political, diplomatic, economic relations — both imports and exports — and make sure that their private sector, insurers, banks, pension funds, universities, and other goods and service providers in the supply chains do the same. Let's be clear:
I mean cutting ties with Israel as a whole.

RESIGNATION HERO

Joe Kent, resigned March 17, 2026
Director of the National
Counterterrorism Center
Acting Chief of Staff to the Director of
National Intelligence

President Trump,

After much reflection, I have decided to resign from my position as Director of the National Counterterrorism Center, effective today.

I cannot in good conscience support the ongoing war in Iran. Iran posed no imminent threat to our nation, and it is clear that we started this war due to pressure from Israel and its powerful American lobby...

As a veteran who deployed to combat 11 times and as a Gold Star husband who lost my beloved wife Shannon in a war manufactured by Israel, I cannot support sending the next generation off to fight and die in a war that serves no benefit to the American people nor justifies the cost of American lives.
